

Volunteers are the engine that run our farm, and we absolutely would not be able to produce the same quality or quantity of food without them. Each year, we are blown away by how many people choose to give us their time and hard work in the blazing sun, extreme humidity, wind, rain and mud--and so often with a smile!

Everyone deserves the opportunity to have healthy, whole foods available to them, and the thousands of hours invested by volunteers on our farm all contribute to a food system that serves Richmond communities more equitably. We are so very grateful.
