We believe that location and income should not determine access to healthy food. We have Mobile Market locations throughout the city, connecting communities to fresh, locally-grown produce.

## ABOUT US: SHALOM FARMS

We believe in good food -- food that is good for our bodies, our neighborhoods, and our Earth. With the help of thousands of volunteers and visitors, we grow over 200,000 pounds of fresh vegetables and fruit each year, to bring food justice to more than fifteen neighborhoods across the city that experience the impacts of food apartheid.

**We believe that good food starts at the source.**

Our farm is Certified Naturally Grown, which means we use organic fertilizers, compost, cover crops, and organic seeds to grow the highest quality vegetables.
